SUMMARY

Data Science Engineering student (LEAD University, 2027) with applied experience in data mining, statistical inference (ANOVA, MANOVA, OLS, Logit), dimensionality reduction (PCA), and unsupervised clustering (K-Means, DBSCAN). Builds production ML pipelines, RESTful APIs, and full-stack apps. Seeking entry-level or internship role in Data Science or Machine Learning.

TECHNICAL SKILLS

Data Science	scikit-learn, Pandas, NumPy, Matplotlib, Seaborn, statsmodels, EDA, Data Mining
ML / Stats	K-Means, DBSCAN, PCA, ANOVA, MANOVA, Logistic & Linear Regression, LOWESS
Languages	Python (advanced), SQL, JavaScript/TypeScript, Bash
Backend & DB	FastAPI, Flask, Node.js/Express, PostgreSQL, JWT, REST API
Cloud & DevOps	Docker, GitHub Actions (CI/CD), Render, Railway, React, Streamlit

DATA SCIENCE PROJECTS

Statistical Analysis — Personality & Nutrition · Python · Pandas · SciPy · statsmodels · Seaborn

- Full EDA pipeline (pairplots, boxplots, heatmaps); hypothesis testing — ANOVA & MANOVA; Logistic Regression (Logit) for high-leadership classification; Multiple OLS Regression for caloric density prediction.

Unsupervised Learning — Clustering · Python · scikit-learn · K-Means · DBSCAN · Matplotlib

- Applied K-Means and DBSCAN to real-world datasets; evaluated quality via Elbow Method and Silhouette Score; compared centroid-based vs. density-based clustering approaches.

Dimensionality Reduction — PCA Multidominio **[In development]** · Python · scikit-learn · NumPy · Matplotlib

- PCA on USA Cars Dataset (11 vars): PC1–4 capture 60→96% of variance; identified elbow at PC3–4 as optimal reduction. Analyzed Electric Vehicles Dataset (53 EVs). Expanding biplot/loadings visualization.

SOFTWARE ENGINEERING PROJECTS

FacturalQ — Billing Analytics Dashboard · React · TypeScript · Node.js · PostgreSQL · Docker · JWT · GitHub Actions

- Full-stack BI platform: CSV ingestion, KPI dashboards, JWT auth, dynamic data normalization, modular architecture. Deployed on Railway/Render.

Background Remover — Computer Vision App · React · Python · ONNX Runtime · rembg · Docker · Streamlit

- ML web app for automated background removal using U2Net (ONNX). Layered REST backend + Streamlit local version with in-memory inference.

Hand Gesture Detection · Python · OpenCV · MediaPipe · NumPy

- Real-time hand landmark detection on live video; optimized processing pipeline with NumPy for real-time performance.

EXPERIENCE

IT Support Technician — Librería Cristal

Jan 2022 – Present

- Tier 1/2 support for 15+ workstations; reduced downtime ~20% via preventive maintenance. Installed and configured network infrastructure (routers, switches, Ethernet). Documented 10+ troubleshooting workflows.

EDUCATION

B.S. Data Science Engineering — LEAD University (ULEAD), Costa Rica
Data Mining · Statistical Inference · Machine Learning · Databases · Software Engineering

2025 – *Expected 2027*

Technical Degree in Software Development — CTP Francisco J. Orlich

2020 – 2022

CERTIFICATIONS

DATA CAMP	Introduction to Python · Intro to Python for Developers · Functions in Python · Intermediate Python
INA	Controlador de la Calidad de Software · Elaboración de Hojas de Cálculo · Inglés Básico · Inglés Intermedio
Other	Libertad y Liderazgo

LANGUAGES

Spanish: Native · **English:** Professional Working Proficiency B1 — actively improving
